

Female Education Conflict Matrix

Choose six 'players' in female education in developing countries and write each one in each of the numbered boxes in the conflict matrix.

Then decide on the nature of the relationship between these players in connection with female education, using the key suggested.

...

	1				
2		2			
3			3		
4				4	
5					5
6					

Key:

A good relationship exists between these two players

The relationship between these two players is neither good nor bad

There is a poor relationship between these two players
